

Talent Acquisition Specialist

Qualifications

- 2–5 years of recruitment experience, preferably in manufacturing or factory environments.
- Strong understanding of labor workforce dynamics.
- Experience with blue-collar and white-collar recruitment.
- Familiarity with local labor laws and compliance.
- Excellent communication and organizational skills.
- Bachelor's degree in human resources, Business Administration, or a related field.
-

Responsibilities

- Collaborate with hiring managers to understand workforce needs in factory operations.
- Manage end-to-end recruitment cycles: sourcing, screening, interviewing, and offer management.
- Develop talent pipelines for factory-based roles (e.g., technicians, engineers, supervisors).
- Support onboarding to ensure smooth integration of new hires.
